

Mobile core[®]

INDUCTIVE SYSTEMS

Solutions for e-Mobility

- + development of arrangement coils for inductive energy transmutation in the fields of smart grid and e-drive, using in stationary and dynamical systems
- + high frequency coils and inductive components for inductive couplings, developed and manufactured in our company
- + customized air gaps
- + optimized efficient products for inductive couplings in e-mobility

Schmidbauer Transformatoren und Gerätebau GmbH

Spanberg 16 ▪ D-84332 Hebertsfelden ▪ Germany
Phone +49 (0)8721-9662-0 ▪ Fax +49 (0)8721-9662-50
trafo@schmidbauer.net ▪ www.schmidbauer.net

Unbeatable!

Made in Germany

innovation

small construction

attractive price

high efficiency

GET THE POWER,
TURN IT ON.
