Optimized air cooling by Schmidbauer

Alternative to water cooling

- + Plug and Play → integrated air cooling system ready to use
- + Power up to 2500 kVA or currents up to 6000 A
- + Application for transformers, chokes, filter and other magnetics possible

If you have any further questions don't hesitate to contact us.
Just give us a call – we'd be glad to advise you!

DE 10 2017 126 599 A1

Optimized air cooling by Schmidbauer

Alternative to water cooling

- + Comparable size as with water-cooled systems
- + Space-saving designs in all variants possible
- + Significantly lower overall weight
- + High power losses can be dissipated efficiently
- + Low energy consumption for a good cooling effect
- + No additional components necessary (for example: heat exchanger, pump, etc.)

If you have any further questions don't hesitate to contact us.
Just give us a call – we'd be glad to advise you!
