MF-/HF-transformers

medium frequency transformer, high frequency transformer

- at 1000 kVA up to 50 kHz
- at 1 kVA up to 200 kHz

- + highly efficient medium-frequency and high-frequency winding goods
- + execution in polyurethane grouting up to insulation class F (without PU casting up to insulation class H)
- + compact design
- + power range from 1kVA
- + protection class up to IP 68 possible
- + voltage up to 1500 V

State-of-the-art MF and HF winding goods for

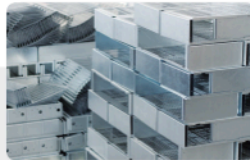

**Railway
technology**

**Welding
technology**

Electroplating

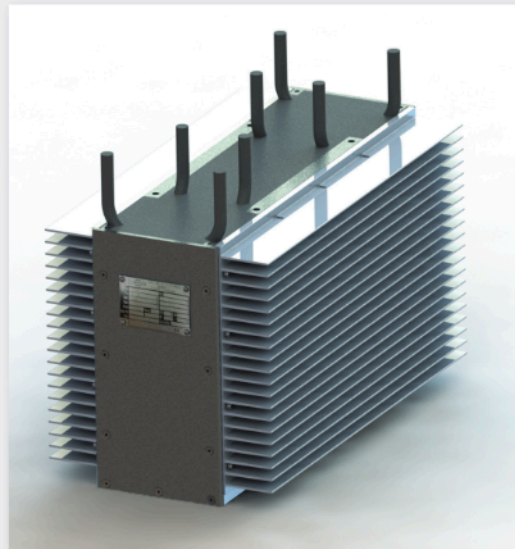

**Power
electronics**

**Power supply
technology**

- + coordinated winding goods for power electronics
- + resource-saving design
- + air & water cooled

compact

light

efficient
